

VILJANDI JAKOBSON SCHOOL

COMMUNITY SCHOOL

*Viljandi Jakobson School is a basic school in Estonia. **Values-based education and a community based school culture** are central to the school's teaching and education. Intra-school and regional networking supports the development of each learner. As an entrepreneurial school, it participates in national programmes and develops entrepreneurial competences of pupils at all levels. The school builds on its **rich history and traditions**. The school's history is visible in the learning environment and integrated into the learning activities.*

*At Jakobson School, additional hours in the curriculum have been added for Estonian language, mathematics and foreign languages, in addition to optional subjects. The study of electives supports the acquisition of priority subject areas (in addition to science and information technology) and entrepreneurial knowledge and skills. There is an **active student council** that meets every week and is involved in school life and events. The school also has a **parents council** who has also organized charity events to help the less fortunate students.*

VIDEO, REFLECTIVE QUESTIONS & MATERIALS

After watching the video reflect in Your group(s):

- How are your parents involved in school life?
- What are the possibilities to engage your alumni more into our school life?
- How are you helping your students who have a more difficult socio-economical background?
